

# More experiences in kinetic and kinematic of the wrist

Barcelona, Institut Kaplan

Stay 03.02. – 14.03.2014

Library in Institut Kaplan with staff and fellows (I am second from left)

I spent a great time of 6 weeks with Dr. Garcia-Elias, Dr. Alberto Lluch, Dr. Alex Lluch, Dr. Ferreres and the fellows from South America in Institut Kaplan.

There was the possibility to participate in a huge variety of hand surgery activities – surgical treatments in different hospitals, visits, lectures and scientific work.

Dr. Garcia-Elias gave me personal lectures to understand kinetic and kinematic of the wrist and he offered me to copy many power-point presentations for my self-instruction.

During visits with Dr. Alberto Lluch we discussed present cases and it was a big benefit for me to look over his the shoulder.

In theatre with Dr. Alberto Lluch, staff and fellows (I am the first from right)

In theatre with Dr. Marc Garcia-Elias, staff and fellows (I am in the middle)

I am truly grateful that I had the opportunity to get a FESSH Award what stimulate me to go abroad.

I carried back nice memories and I filled up my mind with new ideas.

Stephan N. Blank

INSTITUT KAPLAN

17 June 2015

**DIPLOMA**

**To whom it may concern:**

This is to certify that **Dr. Stephan Blank** has observed and participated in most Hand and Upper Extremity surgical procedures, as well as teaching activities at our institution, from February 3<sup>rd</sup> to April 14<sup>th</sup> 2014.

Very truly yours,

Dr. Alberto Lluch    Dr. Marc García-Eliás    Dr. Ángel Ferreres    Dr. Àlex Lluch

*The Institut Kaplan has been accredited by the Federation of European Societies for Surgery of the Hand (FESSH) for the training in Surgery of the Hand and Upper Extremity.*
