

CENTRO TRAUMATOLOGICO ORTOPEDICO, TORINO, ITALY FESSH TRAVELLING AWARD, 2015

Turin, Italy

FESSH TRAVELLING AWARD, 2015

Country: **Italy**

City: **Turin**

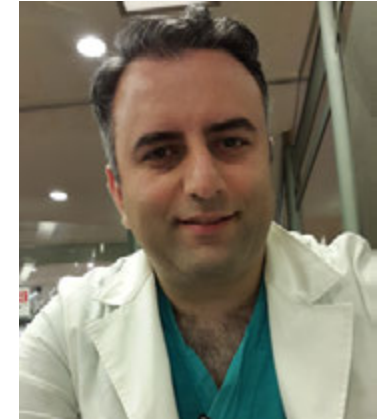

Institution: **Centro Traumatologico Ortopedico**

Department: **Traumatology & Orthopaedics**

Head: **Dr. Bruno Battiston**

Awardee: **Dr. Georgy A. Nazaryan**

Period: **20 September- 20 October, 2015**

*Dr. Georgy A. Nazaryan
Department of Microsurgery
Clinical Hospital N 71
Moscow, Russian Federation*

Centro Traumatologico Ortopedico

CENTRO TRAUMATOLOGICO ORTOPEDICO

- founded in 1961
- is a major medical centre in Turin, Italy
- one of the leading orthopaedic hospitals in Italy
- services a majority of trauma incidents occurring in Italian Alps
- teaching hospital for local medical faculties
- served as one of the main orthopaedic hospitals during 2006 Winter Olympics

ROTATION WITH STAFF SURGEONS

Dr. Bruno Battiston

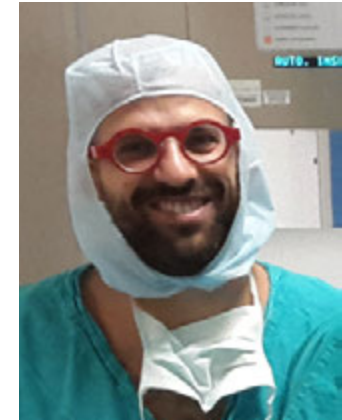

Dr. Pierluigi Tos

Dr. Bernardino Panero

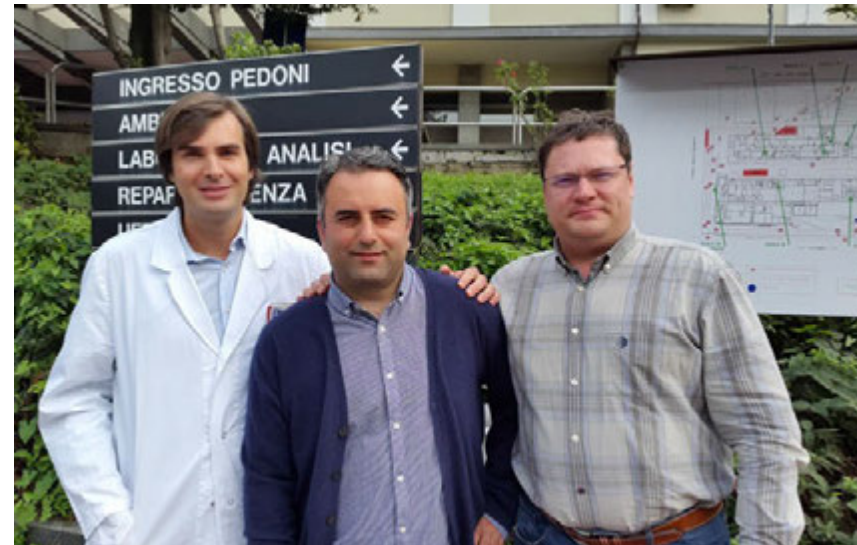

Dr. Paolo Titolo

Dr. Davide Ciclamini

*Dr. Pierluigi Tos, Dr. Timofey Sukhinin, Dr. Bruno Battiston,
Dr. Georgy Nazaryan (from left to right)*

*Dr. Paolo Titolo, Dr. Georgy Nazaryan, Dr. Timofey Sukhinin
(from left to right)*

PERSONAL EXPERIENCE

- *Brachial plexus surgery*
- *Microvascular fibula transfer for reconstruction of recurrent femoral neck cyst*
- *Tendons transfer for radial nerve palsy*
- *Tendons transfer for peroneal nerve palsy*
- *Peroneal nerve repair with sural nerve graft*
- *Radial nerve repair with sural nerve graft*
- *Rotator cuff reconstruction with latissimus dorsi muscle tendon transfer and fascia lata allograft*
- *Management of suprascapular nerve entrapment by ganglion cyst*
- *Repair of the torn distal biceps tendon by endobutton fixation*
- *Total elbow arthroplasty*

Dr. Tos is performing tendon transfers for radial nerve palsy

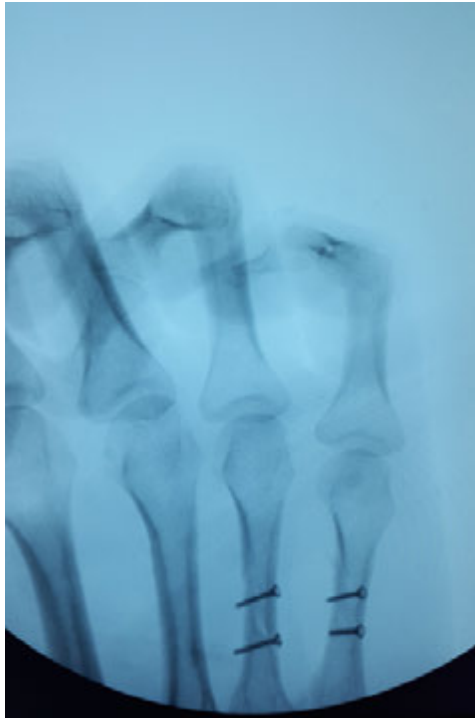

Dr. Battiston is preparing fascia lata allograft

Drs. Battiston & Tos are repairing peroneal nerve with sural graft under microscope

PERSONAL EXPERIENCE

- *Revision total elbow arthroplasty*
- *Management of comminuted elbow fracture*
- *Management of comminuted DRUJ fracture*
- *Proximal humerus fracture osteosynthesis with CarboFix Humerus nails*
- *Thumb UCL repair*
- *Trigger finger release surgery*
- *Percutaneous scaphoid compression screw fixation*
- *Proximal phalanx plating*
- *Close reduction and percutaneous pinning of metacarpal fracture*

*Osteosynthesis of 4,5th metacarpals
with screws*

*Osteosynthesis of proximal phalanx
with plate and screws*

*Proximal humerus fracture osteosynthesis
with CarboFix Humerus nail*

PERSONAL EXPERIENCE

- *Z-plasty surgery*
- *Repair of flexor tendons and ulnar nerve lacerations*
- *Syndactyly surgical reconstruction*
- *CRPS treatment options with placement Medtronic's neurostimulators on femoral nerve.*
- *Opponensplasty with EDI*
- *Management of Dupuytren's contracture with Xiapex*

Dr. Bruno Battiston and Dr. Paolo Titolo are performing latissimus dorsi muscle tendon transfer

Dr. Pierluigi Tos is applying nerve glue to sural nerve grafts during peroneal nerve reconstruction

ACKNOWLEDGEMENTS

- *FESSH for presenting such opportunity and FESSH training committee for financial support*
- *Dr. Bruno Battiston for his support, hospitality, attention, teaching skills and being great “**DIRETTORE**”*
- *Dr. Pierluigi Tos for sharing with it's experience, tips and tricks and being “**MICROCHIRURGO VERO**”*
- *Drs. Panero and Titolo for their friendly approach and care*
- *Italy & Turin - We fell in love with YOU!*

Torino, October 20th, 2015

TO WHOM IS INTERESTED FOR

This letter is to certificate that Dr. Georgy Nazaryan visited our Center from September 20th to October 20th 2015 with a FESSH fellowship . He showed great disposition to learn and apply himself, especially in reconstructive surgery. He practiced with us clinical activity, showing great interest in fully completing his culture and professionalism. He observed our organization with special interest in emergency care.

Then, I think that he is absolutely to be recommended for further trainings and fellowships
