TO WHOM IT MAY CONCERN

**Adrienn Lakatos, born February 10, 1992**, has been a visiting fellow at the Hand division at Department of Orthopedics, Østfold Hospital Trust, Norway, from March 2nd through March 30<sup>th</sup>, 2019. During this period of time, she also attended surgery at Oslo Ortopedsenter, a private clinic, down town Oslo.

Adrienn Lakatos scrubbed in for the different surgical procedures and assisted and participated in the procedures whenever possible. At our division we are six consultants and we perform all different kinds of procedures on the hand and wrist. Most of the time she participated in elective cases (out-patients), and she was especially able to see a variety of arthroscopically assisted procedures.

We hope she was able to pick up some new ideas and saw some new procedures while she visited us. She participated in the discussions around the patients, and it was a pleasure having her at our department. She is always welcome back.
