Uniklinik RWTH Aachen

Klinik für Plastische Chirurgie, Hand- und Verbrennungschirurgie
Sektion Plexuschirurgie

Zsófia Balogh MD

St. George University Teaching Hospital
Székesfehérvár, Hungary

- Objectives:
 - Expand my knowledge on peripheral nerve surgery and both adult and obstetric brachial plexus surgery
 - To learn more about the examination and decision-making of peripheral nerve and hand disorders
 - To experience a high level of clinical routine
- Fellowships activities:
 - Daily rounds
 - 2 days weekly in the operating room
 - Including peripheral nerve, brachial plexus surgeries and also the care for spastic patients
 - Outpatient clinic, examining and learning about decision making in a team approach

- Experience:
 - I have seen more than 20 peripheral nerve and brachial plexus operations requiring high level of lexical and manual knowledge
 - In the clinic, I have seen more than 400 patients
 - I could attend a very interesting small congress about peripheral nerve related issues and prosthetics
 - I had the luck to experience a carnival with the colleagues and how it is celebrated in Aachen
- Acknowledgements:
 - I would kindly thank to dr. Bahm and his entire team, who very kindly welcomed me, and taught me very much
 - For the kind and welcoming environment, and for mentoring me through my observership
 - Thanks to FESSH for the financial support
